Contest Description:

Grenoble is the extreme sport's capital of France and we want the event grow each year, we have the place for it ! For example we are looking for a skateboard vert ramp for 2008.

We will change the point that was below the level last year : we already have the road closure and we will move the giant just next to Grenoble, in Seyssins for a real giant, worthy of the Capital of Alps...

The first edition was a training, and it yet it was a success, we only wait 2008 to confirm it !

Race Event #1 description:

In 2007 the contest was a real good event for most of racers, except the giant race because we needed to be in the downtown to have the support of the city.

The stadium, even with a flat surface, proved that it can be an excellent publicity for the slalom, we had a lot of spectators and media coverage.
